

Pharma. & Biotech

Overview

- More than 20 attorneys in four offices
- Offices in proximity to industry hubs
- More than 90 years experience representing businesses

The complex legal issues and special needs of pharmaceutical and biotechnology firms demand seasoned attorneys with business experience *and* diverse scientific backgrounds. Our team of attorneys at Fox Rothschild offers practical, creative guidance in negotiating and litigating issues unique to the industry, as well as general business advice for securities regulation, corporate governance, environmental issues, and labor and employment concerns.
